Ice Cream Stick Picture Frame

Creative frames: easy craft stick projects for kids

Material:

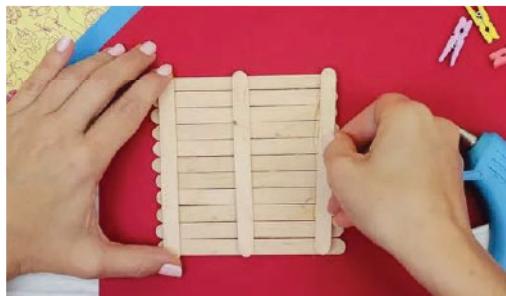

- 21 Popsicle sticks
- Hot glue
- 4 by 6 inches (10.16 by 15.24 centimetres) photo
- Paint or markers (optional)
- Ribbon (optional)
- Decorations (glitter, gems, buttons, etc)

1

Line up 8 popsicle sticks side-by-side. Orient them horizontally. This will make the base of your frame. You do not need to glue them together.

2

Glue 3 Popsicle sticks vertically on top of the 8-stick base: one in the center, and one on each side. These will secure the frame.

3

Flip the frame and place a 4×6 inches photo at the centre of the base (don't glue it). Use the photo as a template. The top and bottom edges of the frame should be straight, with wavy sides from the sticks' curved ends.

4

Draw a vertical line of hot glue on each side of the photo, from bottom to top. Ensure a small gap between the glue and the photo to avoid touching the photo with glue.

1

5

Press a vertical stick onto each glue line, overlapping the edges of the photo to secure it. Then, remove the photo.

6

Glue a stick horizontally across the top and bottom of the frame. Apply glue to the tops of the vertical sticks, then place and press the horizontal sticks onto them. Repeat for the bottom.

7

Stack and glue three sticks together. Repeat this to create another stack. These will form the base of your frame so it can stand upright.

8

Glue one stack to the lower front side of the frame to hold the photo and the other stack at the back to help the frame stand upright.

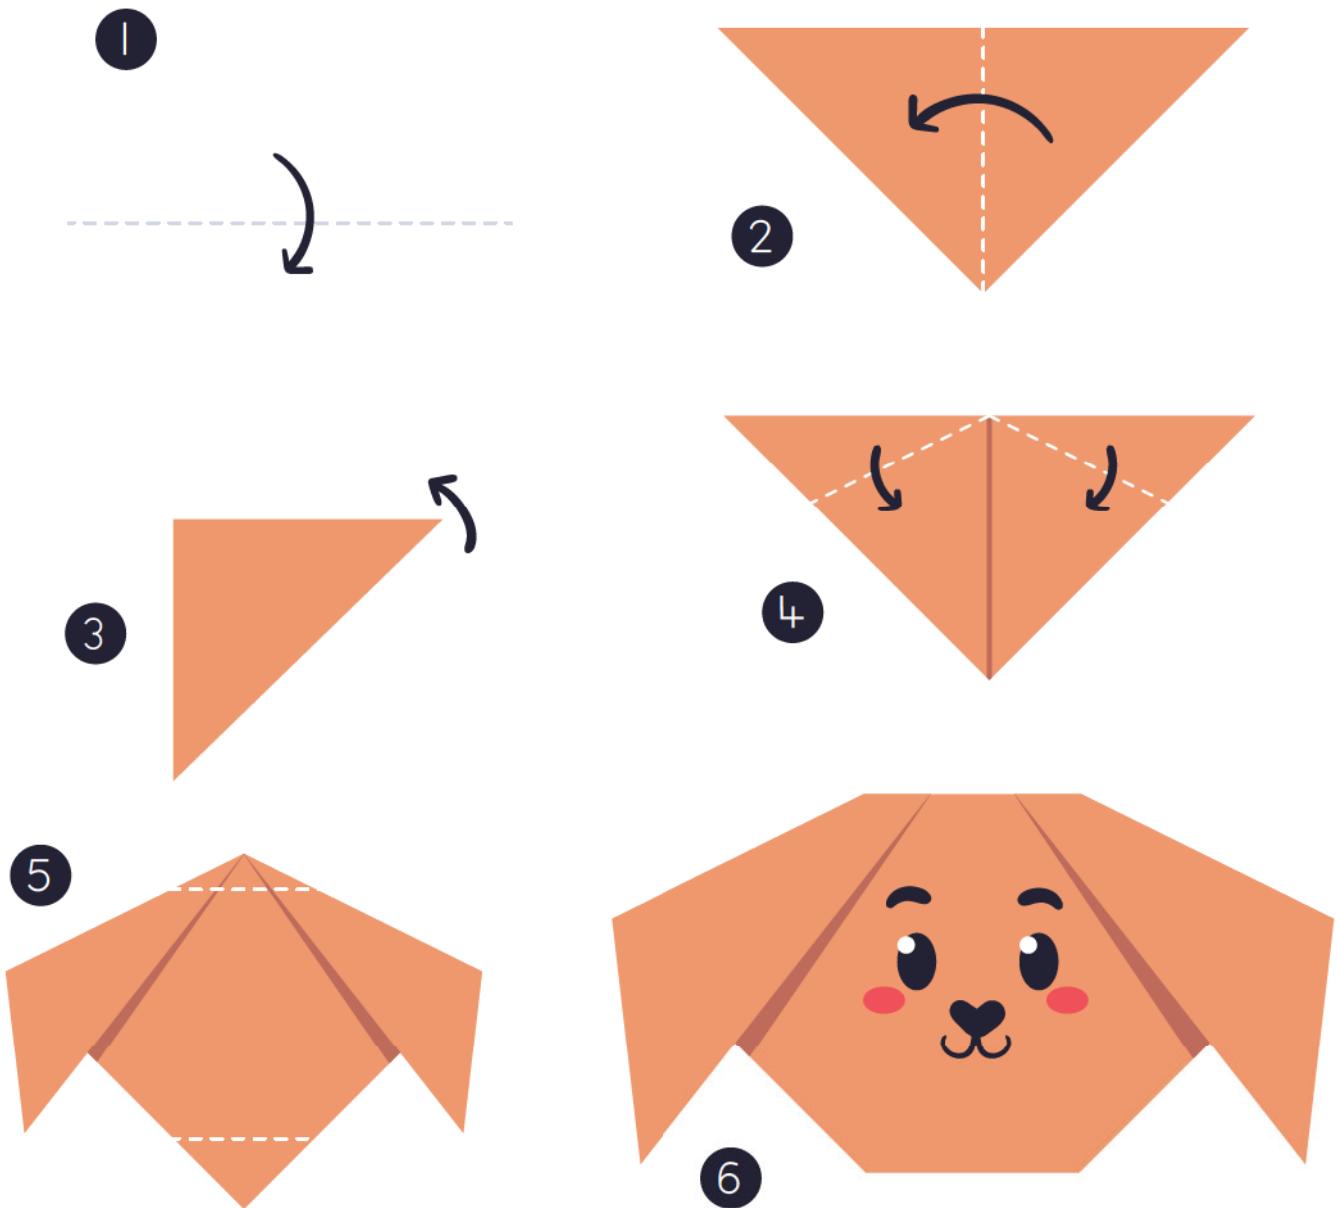

9

Paint your frame and let it dry completely before decorating. You can add a message or decorate with glitter, gemstones, or buttons. Remember to remove the photo before decorating.

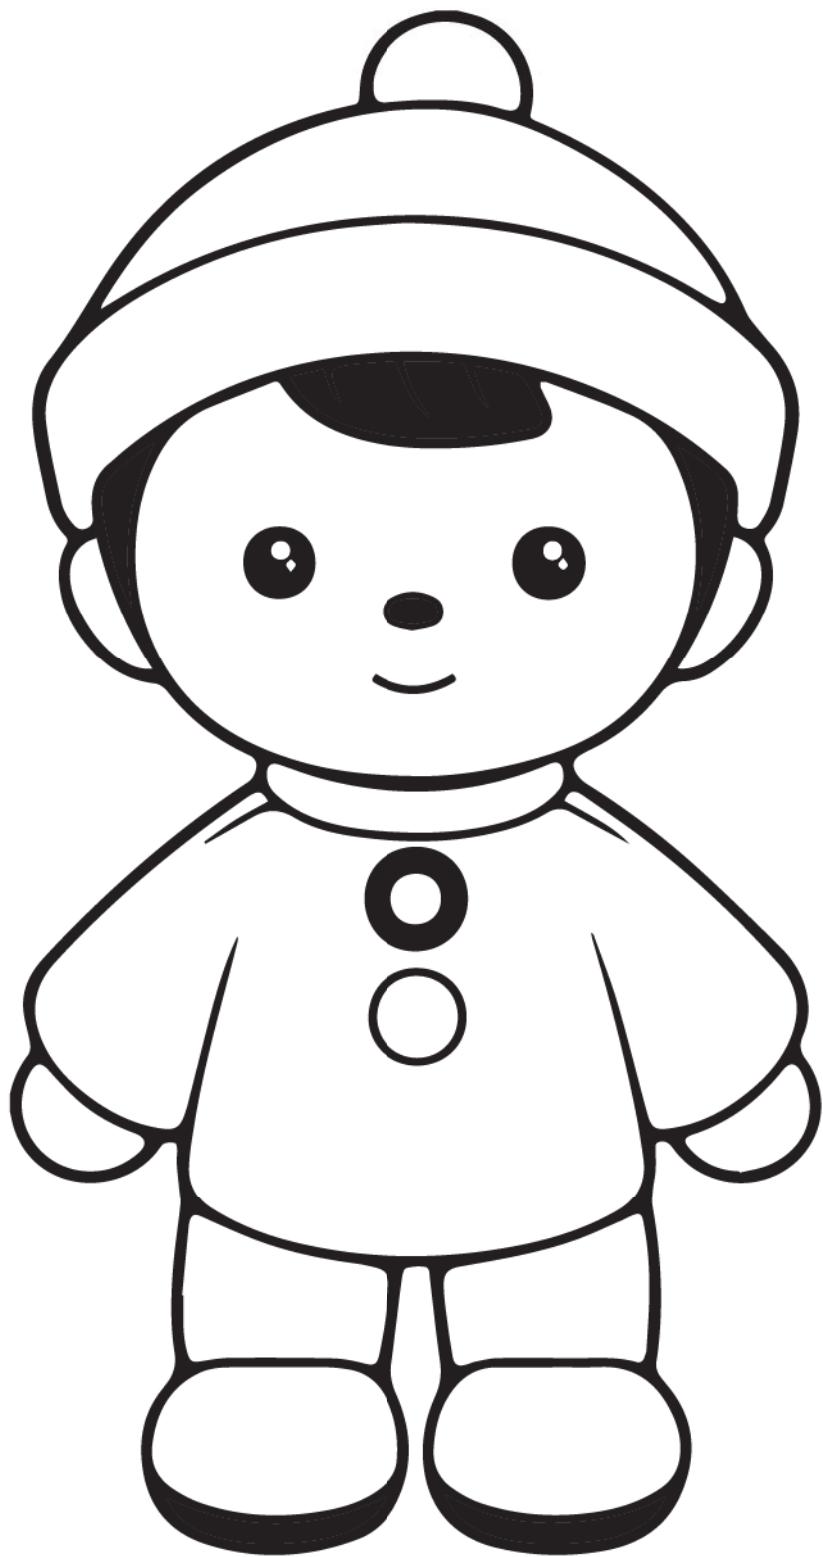

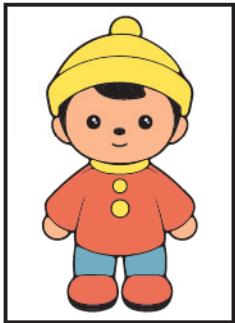

Origami: Dog

Make an origami dog and paste it below.

Colouring Time

Clay Modelling

Clay Modelling: Make Beautiful Clay Cherries

Wax Painting

You will need:

- White card
- White wax crayons or candles
- Watercolour paints, different colours
- Paintbrushes

Instructions

- Write your letters on the card, using either a white crayon or a candle as a crayon.
- Add a small amount of paint to water and mix well. You may need to dilute the paint quite a bit.
- Now for the fun bit. Give your child a paintbrush and ask them to paint over the card to see what letters they can reveal.

Pom Pom

Make your own pom poms and dance!

- Material:**
- Tissue paper or crepe paper
 - Scissors
 - Pipe cleaners or rubber bands

Cut Paper Strips: Cut paper into long strips and stack neatly together

Fold and Secure Handle: Fold the stack in half and secure tightly at the folded end using a pipe cleaner or rubber band.

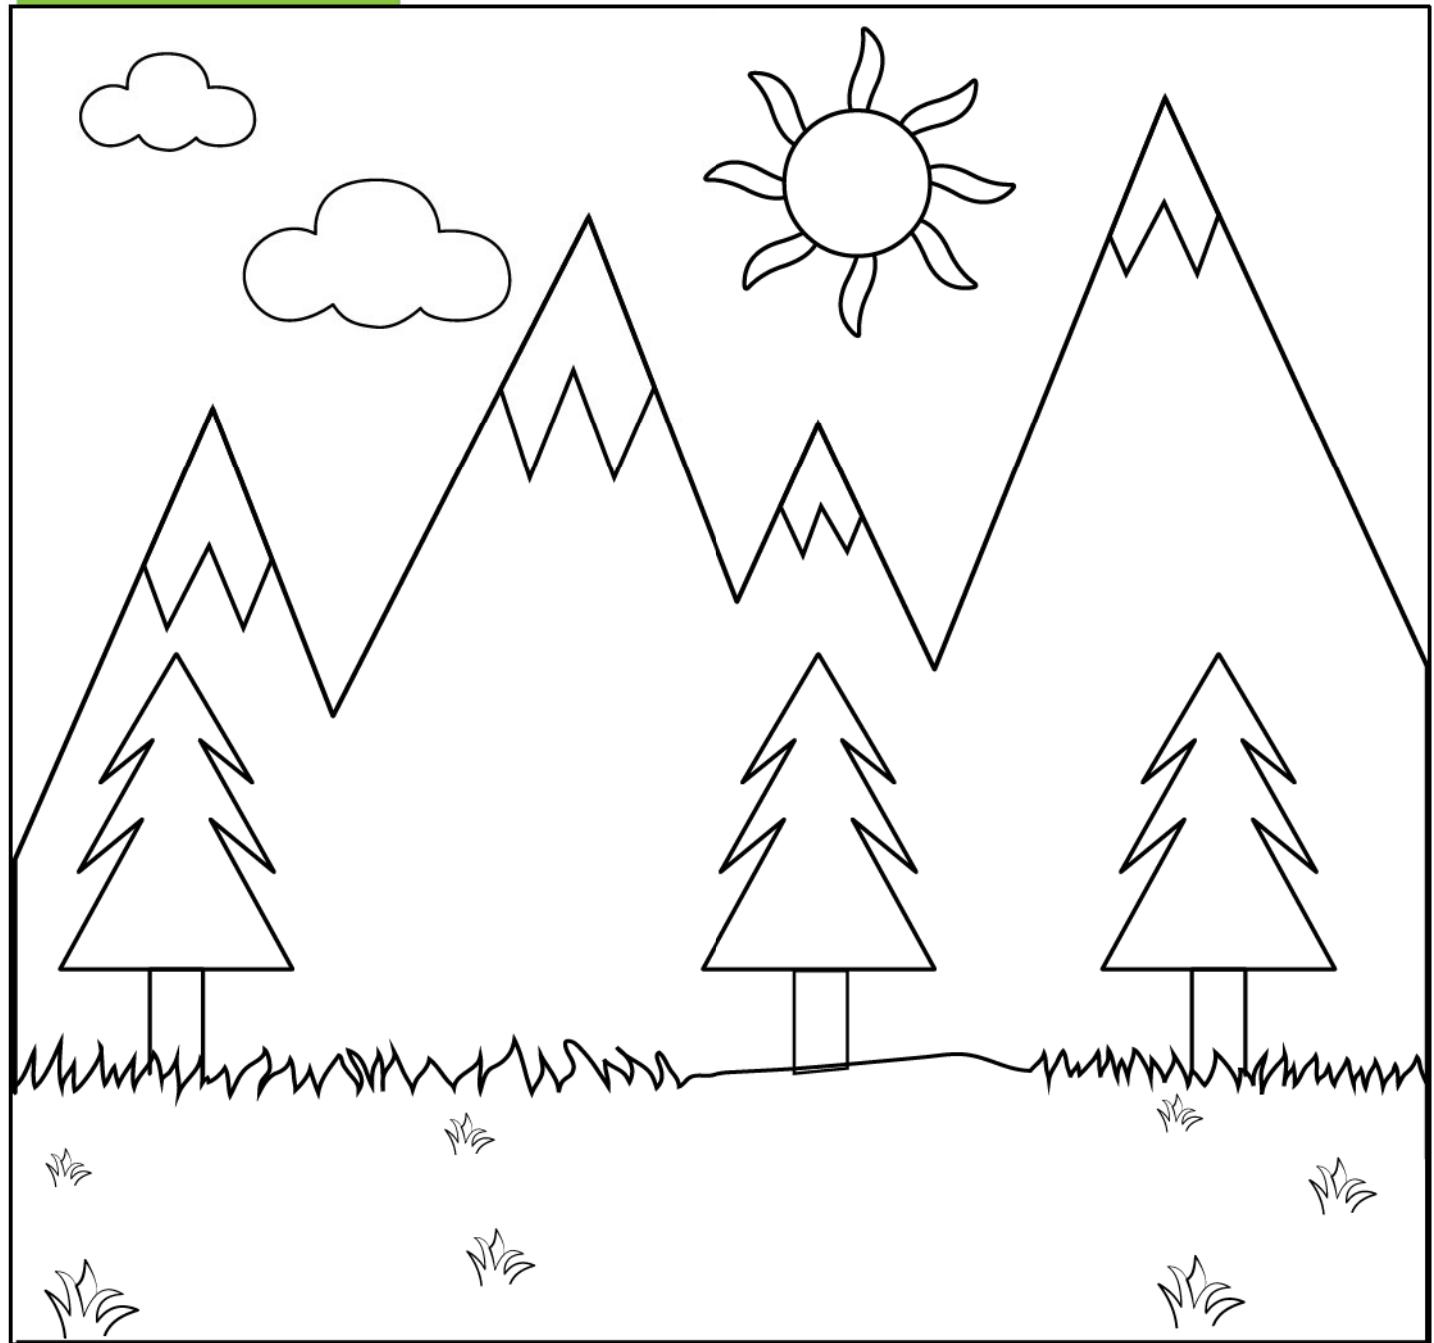

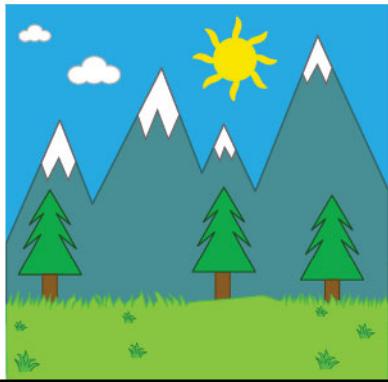

Trim and Shape: Use scissors to trim any uneven edges and shape your pom pom. Make a matching pair.

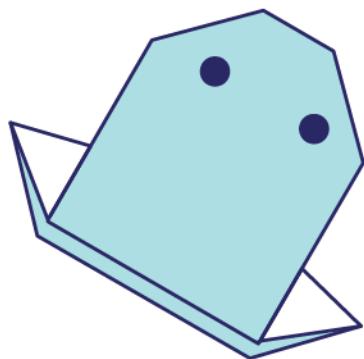

Hip Hip Hooray! Now you have one pom pom. Repeat to make a matching pair.

Paper Plate Animal

Let's make a paper plate lion.

Paper Plate Lion

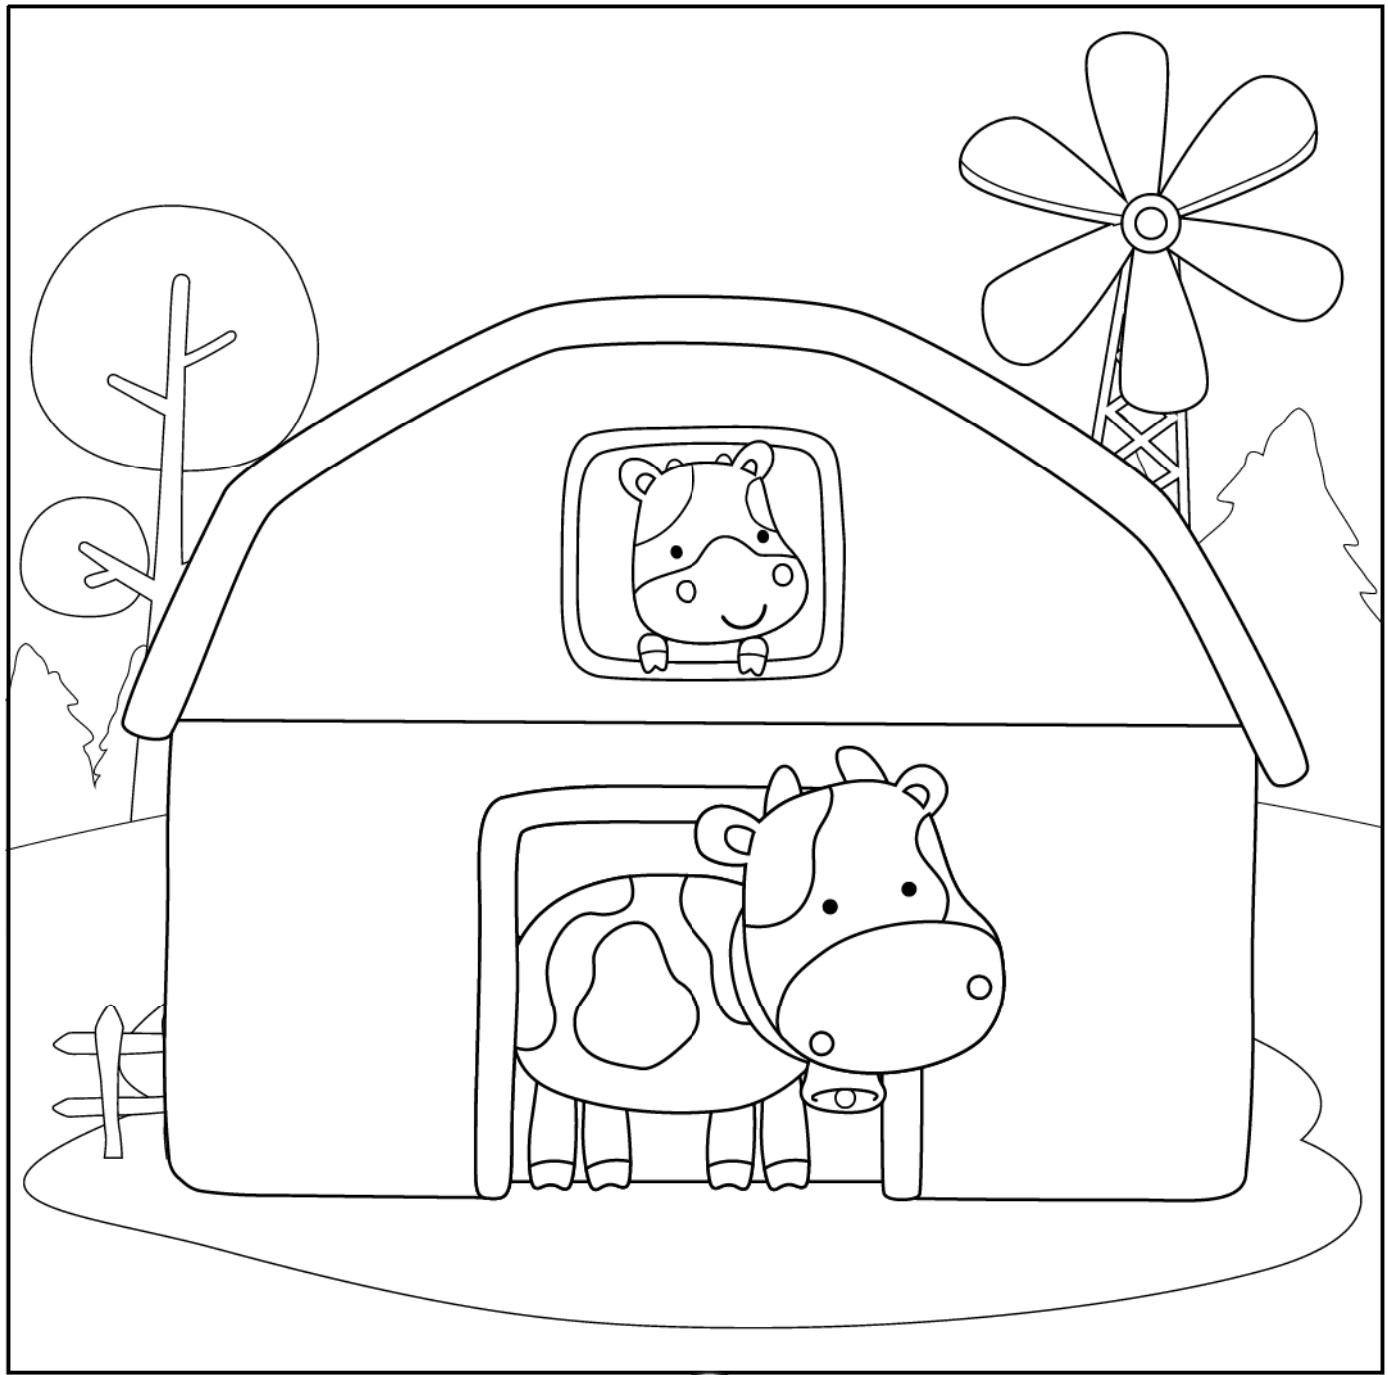

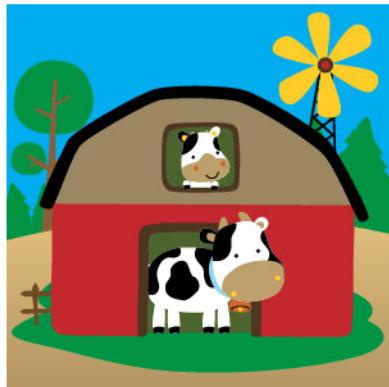

- Paint the paper plate yellow.
- Cut brown paper strips. You can use strips in different shades of brown or just one shade.
- Once dry, flip the plate and glue the brown strips around the edge to form the lion's mane.
- Glue two paper ears onto the back side.
- Flip the plate to the front and trim strips if needed.
- Glue googly eyes and draw the nose and mouth with a marker.

Yarn Painting

- Gather some yarn and roll it into a ball or bundle.
- Dip the yarn into a bowl of paint.
- Press the painted yarn onto your paper to create a print.
- Lift the yarn and repeat or dip again for more prints.

Colouring Time

Marble Painting

Material:

- Shallow cardboard box
- 3 colors of craft paints
- 3 marbles
- 3 spoons
- 3 shallow paint dishes
- Copy paper

Place a sheet of paper in your box. Squeeze paint into each paint dish.

Drop a marble into the first paint dish. Use a spoon to move it around until fully coated with paint.

Pick up the paint-coated marble with a spoon and drop it onto the paper. Tilt the box gently from side to side, rolling the marble to create paint trails.

Tilt the box carefully back and forth, side to side. This will make the marble roll across the paper leaving a trail of paint.

Once all the paint has come off the marble, pick it back up with your first spoon and drop it back into the paint dish it came from. Repeat steps 2 and 3 with each color of paint

When you have marble-painted with each colour, look at your artwork. If finished, let it dry for a couple of hours. If not, repeat with each colour again.

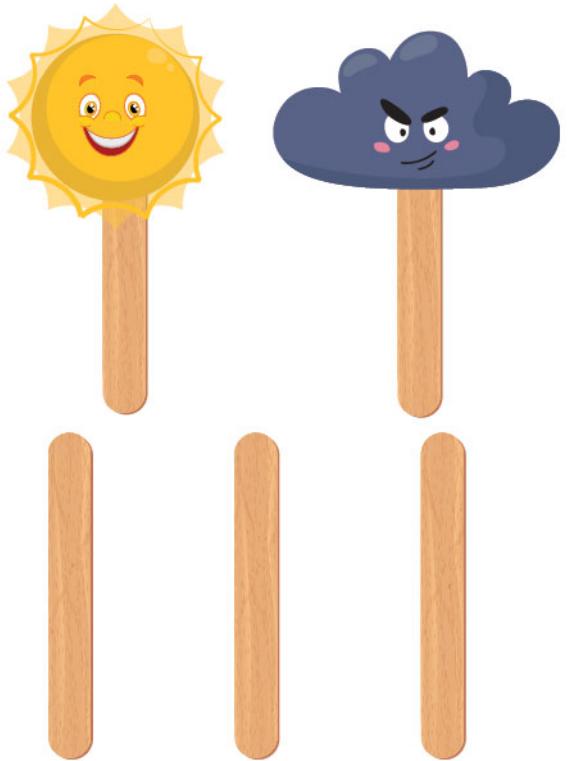

Puppet Show

Paste the pictures on the popsicle sticks to make stick puppets. Narrate the story the sun and the cloud using the stick puppets.

Tear it

Glue it

Its ready

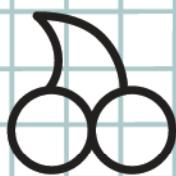

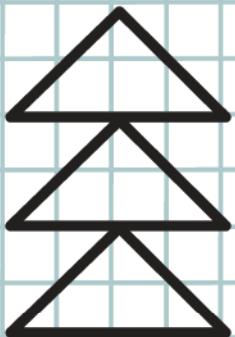

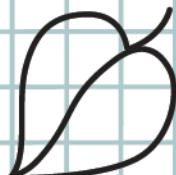

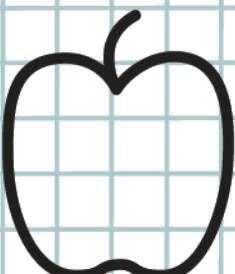

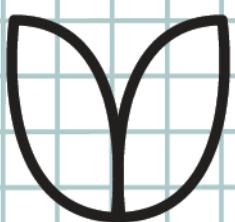

Stickers

Puppet show (The Sun and The Cloud)

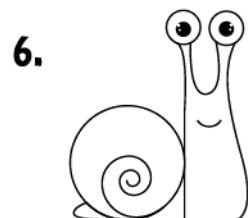

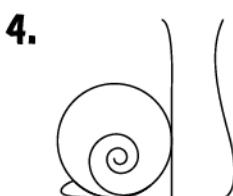

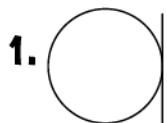

Grid Drawing

Carefully copy what you see on the left in to the empty grid on the right.

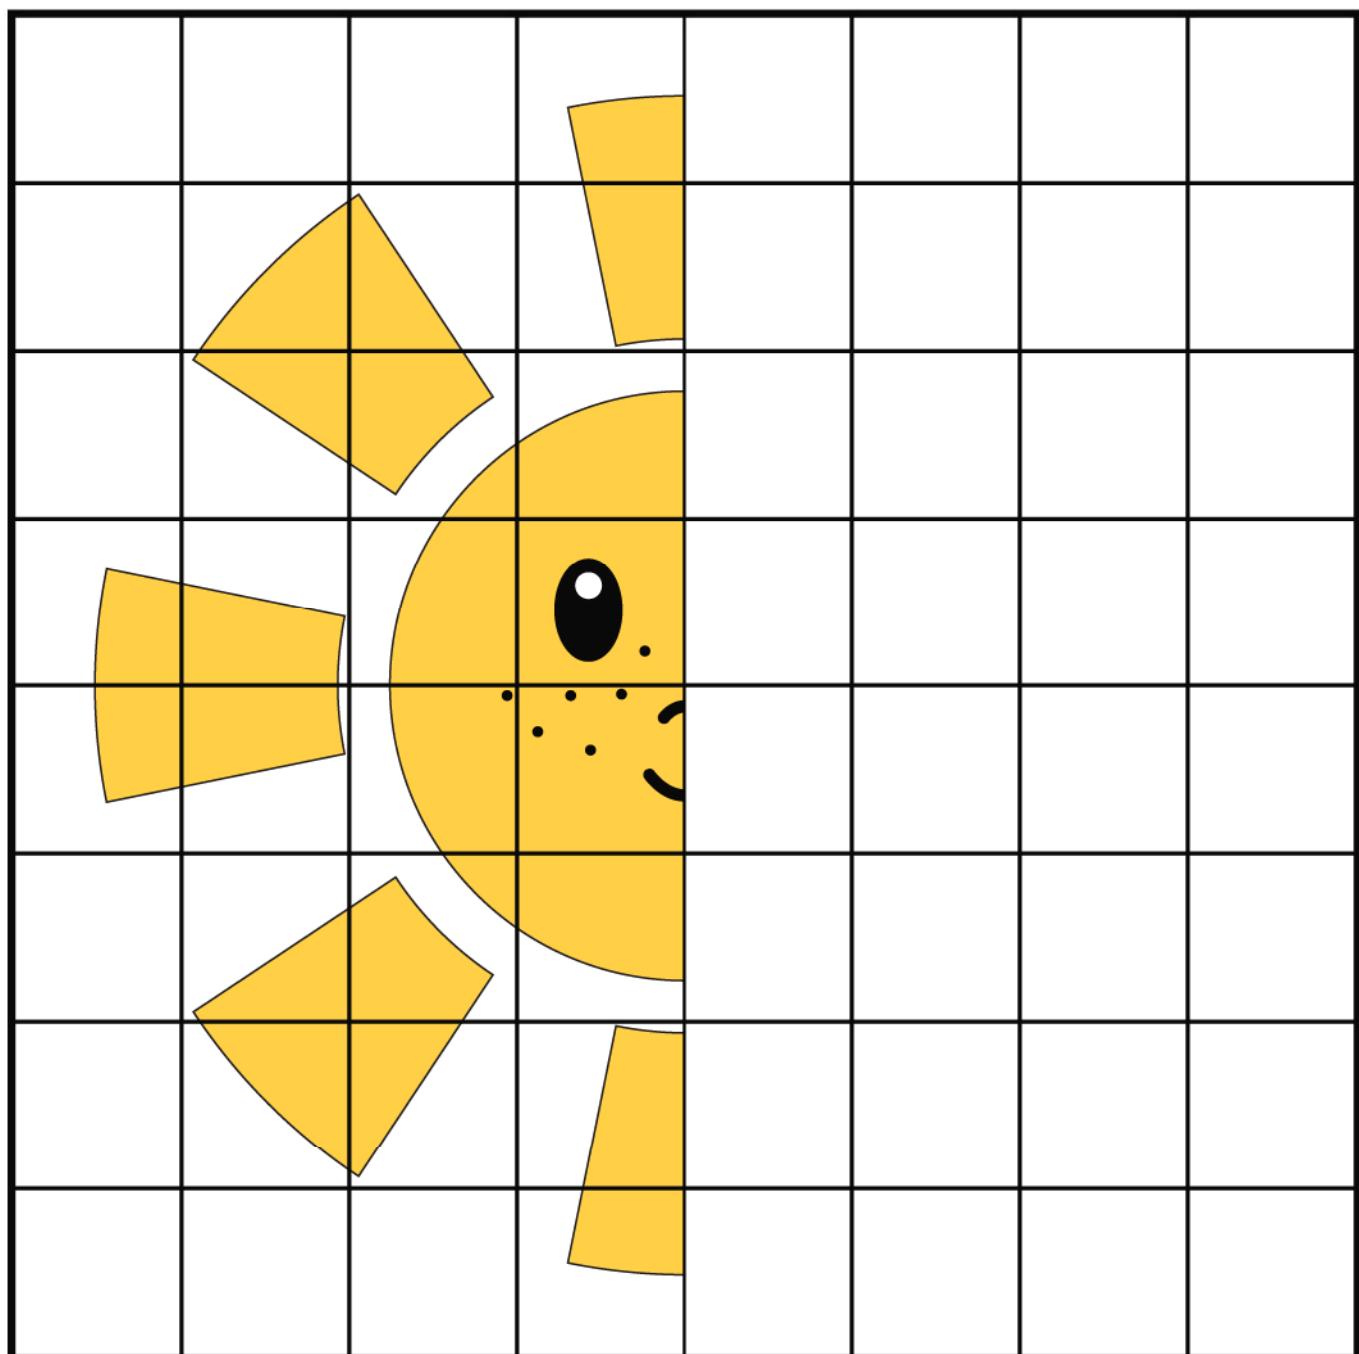

Drawing Time

Draw a snail by following the step-by-step pictures below, then colour it.

Symmetry Drawing

Complete the picture by drawing the other half.

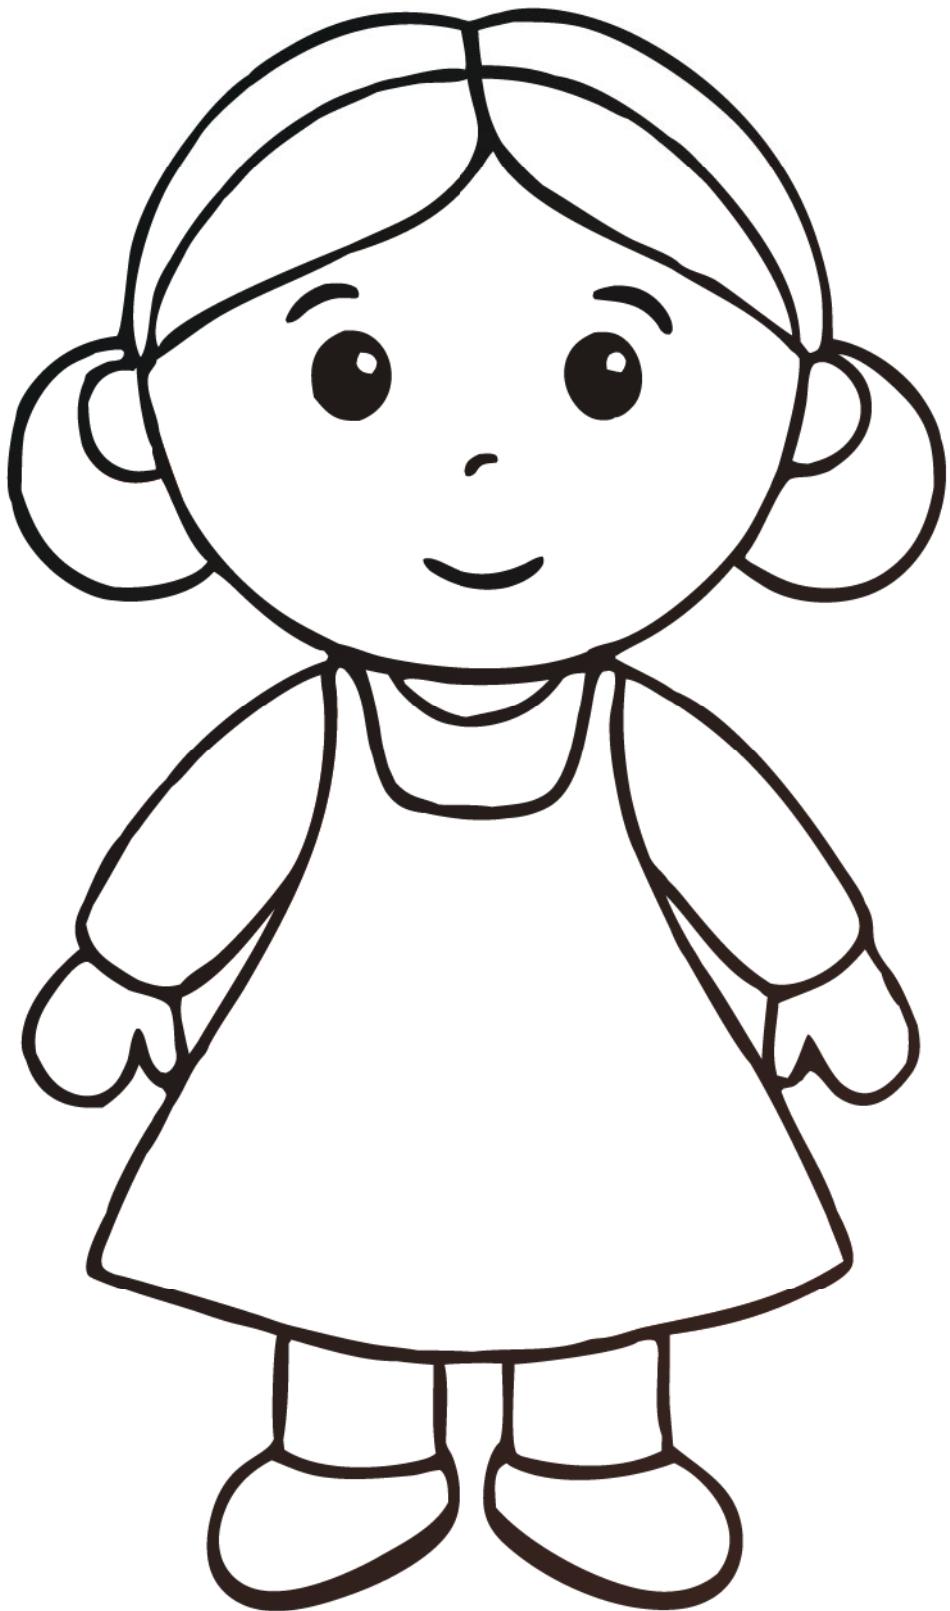

Rock Painting

Material:

- Half-circle rock
 - Acrylic paint in rainbow colours
 - Metallic gold acrylic paint
 - Fine-tip paintbrushes
 - Jar of water
-
- Shake and open the pink, red, yellow, light green, aqua, and metallic gold paint bottles.
 - Use a fine-tip paintbrush to paint a large pink arch.
 - Rinse the paintbrush and blot it dry.
 - Paint red, yellow, light green, aqua, and another pink stripe, rinsing and blotting the brush between colours.
 - Add metallic gold dots at each end of the rainbow.
 - Allow it to dry completely.

Colouring Time

Sponge Painting

Things Needed:

- Sponges
- Paint
- Plate or paper towel
- Paper

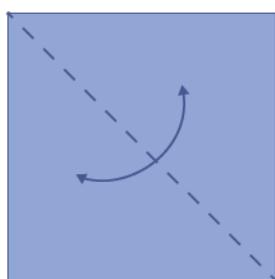

Instructions:

- Pour a small amount of paint onto a plate or paper towel.
- Dip the sponge into the paint.
- Dab the sponge onto the paper to create your design.
- Use different sponges to make unique patterns.
- Let the painting dry completely before hanging your artwork.

Cardboard Tube Animals

Material:

- Orange paint
- Black paint
- Orange construction paper
- Google eyes
- Glue
- Black marker

Paint the cardboard tube orange. Let it dry.

Cut two small triangles from orange paper for ears. Draw smaller black triangles inside them.

Glue googly eyes on the tube. Draw a nose, mouth, and whiskers using a black marker.

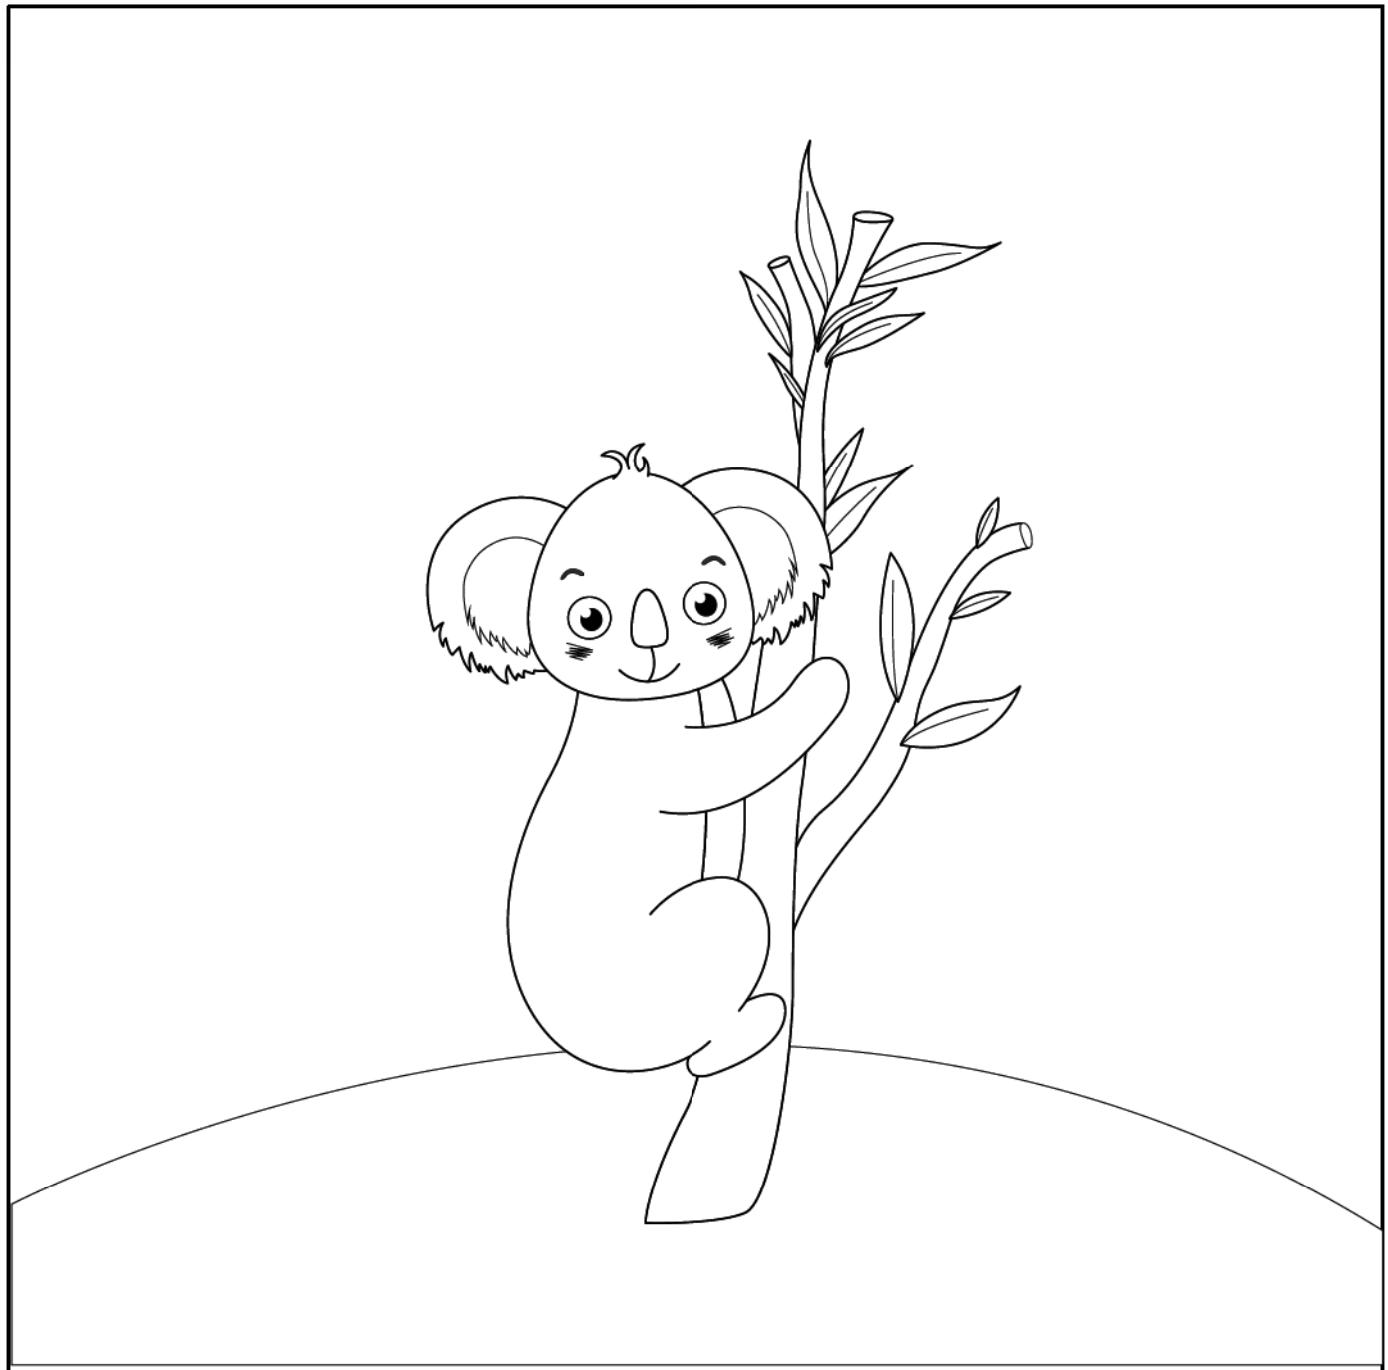

Paint black stripes around your tiger. Leave the belly plain.

When dry, glue the ears inside the top of the tube, just above the eyes.

Your tiger is ready!

Colouring Time

Crayon Rubbing Art

Keep a leaf under the page and rub the green colour crayon on the page to make the trace of the leaf.

Doodle Art

Draw some doodle art that comes in your mind.

Sandpaper Texture Art

Colour the sandpaper.

Sponge Painting

Take a rectangular piece of sponge, tie the centre with a rubber band to form a butterfly shape, then apply colours and press it onto paper. You will get a butterfly pattern!

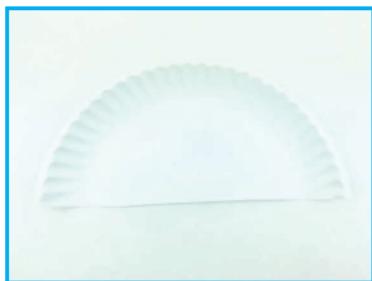

Pipe Cleaner Animals

Make pipe cleaner animals

Paper Plate Jellyfish

- Material:**
- Large paper plate
 - Blue colour paint
 - Blue yarn
 - Paint brush
 - Hole punch
 - Scissor
 - Black permanent marker
 - Self stick googly eyes

Cut the paper plate in half.

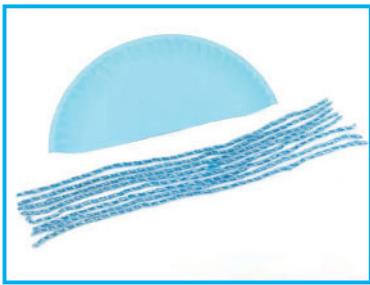

Paint one half of the paper plate blue. If needed, apply a second coat. Set it aside to dry completely.

Optional: If you plan to display or play with your jellyfish, consider painting the back as well.

Punch eight holes along the flat (cut) edge of the paper plate using the hole punch. Try to space them evenly.

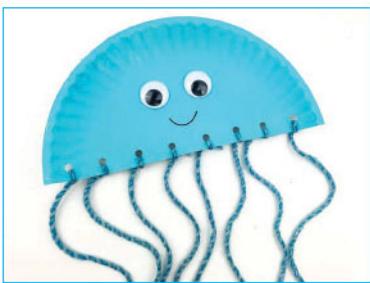

Cut the yarn into eight 12-inch pieces.

Thread each piece of yarn through one of the holes in the paper plate and tie it in a knot on the unpainted side.

(Tip: Placing the yarn from the painted side and knotting it at the back keeps the front neat.)

Stick (or glue) the eyes onto the paper plate. Your jellyfish is really coming to life now!

Draw a mouth. This sweet little smile gives your jellyfish a real personality.

Enjoy! Your paper plate jellyfish is now ready for play or display.

Straw Blowing Art

- Place small drops of different coloured paint on a sheet of paper.
- Use a straw to gently blow each drop, spreading the paint in various directions.
- Create fun shapes and patterns as you move the paint around!
